3 April 1974

Note For: Mr. George Cary
Legislative Counsel

Attached are two papers responding to your 27 February request for information on China for Senator Jackson. They are an OER paper on the Chinese Market for Technology and an OSR paper on Chinese Nuclear and Arms Control Strategy.

We have nothing that you can give Jackson's staff on the history of the Sino-Soviet relations. We never have really done a write-up report on this subject. The two most relevant documents are estimates which, of course, you cannot provide. There is, however, a one-volume book by Donald S. Zagoria entitled Sino-Soviet Conflict. [REDACTED]

[REDACTED] The Zagoria book is one of the best studies on the Sino-Soviet conflict and I recommend that you suggest that to Mrs. Fosdick as the best thing around that the Senator could read for background.
